Gender Inclusive Housing Application 2018-2019

Gender Inclusive Housing (GIH) offers students a safe environment that is welcoming to all gender identities; not one that is limited by the traditional gender binary. This is a voluntary option where students can choose to live with an individual of any gender identity regardless of their biological sex. This pilot program will offer a chance for residents to discuss and learn more about gender identity, gender expression, biological sex, and attraction in a safe and supportive environment. Residents who opt into GIH will sign up with a roommate before Roomdraw. Each person must turn in an individual application.
