# WELCOME

Dear Incoming Student,

Welcome to your Passport to PEAK! This book is designed for you by your academic advising team to help you visualize your path through the College of Idaho and help familiarize you with our innovative PEAK curriculum. While preparing these PEAK maps, we focused on general success paths that a student can reasonably complete. I want to stress now that these maps are not the only route, you will have many detours and individual summits to achieve. As such – please use these to explore possibilities within PEAK.

These documents were prepared by your First Year Advisors, and our team is so thrilled to begin working closely with you as you navigate the curriculum. Our job is to be your initial academic guide, while ensuring that you are comfortable and prepared for your academic journey. Please never hesitate to reach out to us with any question, as we are excitedly anticipating working with you this Fall. On the next page you will find a brief outline of your advising timeline. This is the recommended meeting schedule for you and your advisor, and will ensure that you are checking in regularly to foster appropriate progression. We will work hard over the summer to complete an individualized schedule for you. These schedules will be built considering your standardized test scores, Pre-Registration Questionnaire answers, and intended program of study. Don't worry if you are undecided about what you want to study, PEAK is perfect for you as it provides the flexibility to explore and discover your academic passions. I look forward to meeting you in person and encourage you to reach out at any point.

Best Wishes,

# ADVISING TIMELINE

## **Senior Year Spring: Deposit and Complete Pre-Registration Questionnaire**

- The order in which Fall schedules are built is based on when a student deposit. Please consider depositing early in order to receive greater priority for course consideration.
- The Pre-Registration Questionnaire allows us to build your schedule tailored to your interests.

## **Summer 2018: Send in any placement information and stay in touch**

- During the summer don't forget to send us any relevant information we need to build your schedule such as AP Scores, Concurrent Credit, ACT/SATR Scores.
- Stay in touch with any questions.

## **August 2018: Schedule individual advising meeting**

- During this meeting we will discuss your academic schedule, buying books and your advising relationship and expectations for the upcoming year.

## **October 2018: Registration Meeting**

- Meet with your advisor to discuss registration for Winter/Spring 2019.

## **January 2019: Declare Major/Minors**

- Meet with your advisor to declare major/minors and program Self Service options.

## **February 2019: Complete PEAK Map**

- Meet with your advisor and student mentors to complete a four year guide through the curriculum.

## **March 2019: Transition to faculty advisor in major department**

- Meet with a faculty member in your major field for the remainder of your studies. This allows you to develop the individual close bond with faculty.

# UNDECIDED MAJORS

PEAK is designed intentionally to provide flexibility for students who are still exploring their academic paths. It allows students to complete their academic program while dedicating roughly 1/3 of their time to exploring other interests. In this spirit, undecided students have the best opportunity to explore different areas until they find their academic passion. PEAK is about students gaining breadth and depth across the curriculum, and purposefully provides many opportunities for students to change their academic pursuits as they are developing into young professionals. The PEAK Circles below indicate that students will still need to cover all four peaks, but as an undecided student you will begin with your First Year Cohort Courses and then branch into exploration in your peaks of interest. Being undecided at The College of Idaho provides the chance to develop academic interests across the curriculum while still graduating in four years provided you work with your Academic Advisor to develop a cohesive PEAK Map.
