

## **MyPlan**

As part of the career development, we offer access to MyPlan.com which can assist you in self-assessments to determine career paths that match you based on four evaluations. We have purchased these evaluations for your experience and use. Check out the following summaries of the four evaluations: Personality Test, Interest Inventory, Skills Profiler, and Value Assessment.

- **Personality Test:**  
The personality test is similar to Myer-Briggs type indicator but is different in it uses the results to identify practical and useful career advice for over 200+ careers.
- **Interest Inventory:**  
The interest inventory identifies your strong interests and compares these to current careers with employees that hold similar interests. By selecting a career that aligns with your interests may lead to career satisfaction.
- **Skills Profiler:**  
The skills profiler guides you through a self-assessment of their strengths and weaknesses. It will also identify career categories that match your results to the skills assessment.
- **Value Assessment:**  
The value assessment asks you to consider the importance of various motivations within a career. They focus on six primary work values and based on your assessments will provide you with a list of 200+ careers matched by your value results.

By using the assessments discussed above, you should be able to assess who and what makes you a valuable asset for corporations and organizations. Use these results to improve or highlight your skills, values, personality traits, and interests.

# Logging on to MyPlan

## Why use MyPlan?

MyPlan helps students and professionals plan more fulfilling lives by making well-informed decisions about their education and careers. Whether you are choosing a major, planning ahead for your first career, or thinking about making a career change, MyPlan can help you explore options and bring clarity and insight to your decisions.
